POLICY DOCUMENT ON WATER CONSERVATION

Water Conservation Policy Document

PREAMBLE:

Water scarcity is one growing concerns of the present times, the ultimate solution for which is water conservation. Issues related to water governance have not been addressed adequately. Mismanagement of water resources has led to a critical situation in many parts of the country. In this context our institute is committed to rain water harvesting and sustainable water management. We have taken several initiatives to conserve water such as rain water harvesting from rooftop run-offs, creation of pond/trenches and bore well recharge system, maintenance of water distribution system etc. Therefore, institute make a policy for water conservation and sustainable maintenance of resources.

VISION:

Proper water conservation measures to increase recharge of groundwater. The College views water from the three inter-related dimensions of Efficient Conservation, Responsible Consumption and Restoring and Retaining surface and groundwater.

OBJECTIVES:

- To increase recharge of groundwater by capturing and storing rainwater, by rain water harvesting from rooftop .
- To store the water for gardening & washing purpose.
- To ensure continuous water supply to all in college campus.
- To recharge bore well system in monsoon season.
- Cleanliness drive to prevent water runoffs and clogging of waste material into nearby water sources.

FACILITIES:

- Rain water harvesting from rooftop run-offs.
- Well-developed bore well recharge system
- Low water tabs in some areas of campus
