**Banking Internship Programme 21-03-2022****Introduction :-**

The scheme of establishing a Career and Counseling Cell in colleges has been formulated to address the diverse socio-economic challenges and geographic backgrounds of the heterogeneous population of students coming to the Colleges vis-à-vis equity of access and placement opportunities through availability of appropriate institutional support information. Linguistic differences and cultural gaps among students also call for the setting up of placement cells.

**Objective :-**

Along with the academic and administrative processes in a college, Career and Counseling Cell has to be a dispensation of well-informed and interested teachers. It has to support the students in the development of soft skills and communication ability to challenge the rigors of competitive tests and on-job training in add-on or vocational courses. As a purveyor of healthy inter and intrapersonal relation it has to inculcate social values and ability to think independently for carrying out social responsibilities. There may be a team of teachers with different subjects and interests to create a homogeneous group to translate this vision and carry out its healthy functions as an institutional imperative.

The guidance and counseling cell in a college is a resource centre of information, guidance and counseling with free accessibility and internet based global connectivity and exchange of information on professional placements.

**Function :-**

- a) To gather information on job avenues and placements in different institutions and related to the courses that the college offers..
- b) To analyze information in the local, regional and national contexts to internships, explore its relevance and utility for the students on their internships, on job training and placement.
- c) To organize seminars and guidance workshops for informing students about their emerging professional trends and events, job profiles, leadership role, entrepreneurship, market needs and risks and implementation of national socio-economic policies and to impart training in soft skill

### Soft Skill (Year 2022-23) Accounting Internship Programme

#### Introduction :-

The scheme of establishing a Career and Counseling Cell in colleges has been formulated to address the diverse socio-economic challenges and geographic backgrounds of the heterogeneous population of students coming to the Colleges vis-à-vis equity of access and placement opportunities through availability of appropriate institutional support information. Linguistic differences and cultural gaps among students also call for the setting up of placement cells.

#### Objective:-

Along with the academic and administrative processes in a college, Career and Counseling Cell has to be a dispensation of well-informed and interested teachers. It has to support the students in the development of soft skills and communication ability to challenge the rigors of competitive tests and on-job training in add-on or vocational courses. As a purveyor of healthy inter and intrapersonal relation it has to inculcate social values and ability to think independently for carrying out social responsibilities. There may be a team of teachers with different subjects and interests to create a homogeneous group to translate this vision and carry out its healthy functions as an institutional imperative.

The guidance and counseling cell in a college is a resource centre of information, guidance and counseling with free accessibility and internet based global connectivity and exchange of information on professional placements.

#### Function :-

- To gather information on job avenues and placements in different institutions and related to the courses that the college offers..
- To analyses information in the local, regional and national contexts to internships, explore its relevance and utility for the students on their internships, on job training and placement.
- To organize seminars and guidance workshops for informing students about their emerging professional trends and events, job profiles, leadership role, entrepreneurship, market needs and risks and implementation of national socio-economic policies and to impart training in soft skill
