implemented in the district. The farmers of the district are well-educated and are close to new technology and political development.

1.1.Information seeking behavior:

The present study deals with the information seeking behavior of farmers of different cropping systems. Information seeking behavior refers to how individuals find and use information in various circumstances¹⁻⁵. It may also cover information retrieval, but its main focus is on understanding why individuals look for information and how they use it. Thomas D. Wilson first used the term "information behavior" in 1981. Wilson's model of information behavior is frequently used in information behavior literature, and the phrase has since become widely accepted. Information behavior, according to Wilson's definition from 2000, is "the entirety of human behavior in respect to sources and channels of information." In this study information seeking behavior of farmers belonging to different cropping system identified.⁶

1.2 District Profile: The total geographical area of Buldana district is 9661 sq. km, which is 3.14% of the total geographical area of Maharashtra State. The population of the district is around 25.86 lakh as per 2011 census. The average density of population is 268 per sq. km., as against State's position of 365 per sq. km. The rainfall ranged between 626 mm and 890 mm during last three years and 95% of it occurs during June - October period. About 79% of the population of the district resides in rural areas. The SC, ST and minority population constitutes 18.41%, 10.76 % and 14.56% respectively of the total population of the district. About 82.09% of the population is literate. There are 1433 villages and 13 semi urban centres and one municipal council situated at Buldana. The district has black soil, which is highly fertile having high contents of calcium, magnesium and carbonates. However, the soil is deficient of Nitrogen, Phosphates, Potash and also humus. The soil has capacity of retaining high moisture and percolation. Vainganga, Purna, Khadakpurna and Painganga are the major river flowing in the district.⁷

1.3 District Economy: Agriculture is the prime activity of the district with bajra, jowar, wheat, and pulses as major food crops. Other crops cultivated include cotton, soyabean, sugarcane and banana as well short duration crops like groundnut, sunflower and vegetables. In the recent past, the maize and potato cultivation has occupied the space. 37% of land holdings are categorized as small and fragmented land holding and this has influenced the cropping pattern as small farmer prefer food crops to cash crops. The coverage of horticultural crops is limited and is expected to pick up as the programme is under auspices of National Horticulture Mission. There is scope for development of agro based activities, forest-based units and artisan units in the district. In State financial annual report for 2013-14, per capita net income of the district was at ₹57,383/- as against state's per capita income of ₹1,03,991/- whereas the National net income stood at ₹67,839. The district is industrially backward and placed in D+ zone index by the State Government.⁷

2. Research Review :

Wilson (2003) projected that “information behavior covers all aspects of human information behavior, whether active or passive. Information seeking behaviour is the act of actively seeking information in order to answer a specific query. Information searching behaviour is the behaviour which stems from the searcher interacting with the system in question. This system could be a technological one, such as the searcher interacting with a search engine, or a manual one, such as the searcher selecting which book is most pertinent to their query. Information use behavior pertains to the searcher adopting the knowledge they sought”⁶

Kishore & Gupta (2011) Several studies highlighted the importance of information in agricultural development and its potential in improving the efficiency of rural development in general. For instance, Information is viewed as one of the key inputs in agriculture ⁹

Dey et al.,(2008)state that with the access to information, small scale farmers are better able to compete with the larger operators.¹⁰

Thujo & Njoroge,(2018) According to this author access to agricultural information influences the farming practices adopted by farmers. Inefficient access and dissemination of agricultural information can negatively affect agricultural development.¹¹

Adio et al. (2016)Agricultural information has been defined as all published or unpublished knowledge on all aspects of agriculture, and that the quality of such information depends on three attributes which are accuracy, timeliness, and relevance.¹²

Anwar (2007) Therefore, consideration of farmers’ information seeking is very vital in the provision of need-based and relevant information ¹³

3. Objective of Study :

The purpose of this study was to describe how the information needs and information seeking behavior of rural farmers. The specific objectives that guided the study were to:

1. Determine farmers’ information needs at various stages of agricultural production;
2. Identify the frequency of usage and trust in information sources.
3. To Know the agricultural information and other reading habits of the farmers.
4. To find out which places are used to fulfill farmer’s reading needs.
5. To Explore the extent to which reading and information access tools are used for the advancement of agriculture and overall development of farmers.

4. Material and Methods :

This study was carried out in Maharashtra state, Chikhli Taluka District Buldhana. This design generally uses survey techniques to gather data, which is relatively inexpensive and takes up little time to conduct. The population for this study included all household heads. Selected sampled twenty villages. Seventeen students selected from Bachelors of Arts faculty except Two fifteen student from Final year class. 1st take the meeting and explain to how to work for sample selection and how to speak to farmers for getting the information. From every village select 10 farmers and get interviews and feed the data in questionnaire. Primary data were collected using an interview schedule. Quantitative data were analyzed using excel and other which involved descriptive statistics such as averages, ranges, and percentages used to make cross-tabulations, and frequency tables.

6. Conclusion :

Although Buldhana district is known as a low rainfall district, it can be seen that it has made good progress in agriculture in recent times. By studying the supply and demand in the market, the farmers produce their agricultural products every year, we can see the inclusion of cash crops like garlic, onion, ginger, turmeric, etc. Besides, the district is also leading in the yield of traditional crops such as pulses, gram, soybeans etc. The district is leading in vegetable production and in recent times also in fruit production. Farmers are not seen selling the goods directly in the markets of Jabalpur, Indore, Surat etc. As the majority of the students studying in the college are from farmers and farm labor families, they are aware of the problems of farmers from their childhood. How research is done on the farmers' question In order to know the farmers' questions and the reading habits of the farmers, the students themselves have conducted this survey by conducting interviews and questionnaires. From this survey, farmers are making new experiments. If any farmer does a new experiment in the country and the state, the information about agriculture reaches the farmers through YouTube WhatsApp channels and the picture research has shown that the farmers are making profit by increasing the production by taking advantage of that information. The purpose of this research is to study the reading habits of the farmers and how reading leads to a happy life. The real success of this research is that the students have gained knowledge about research methods, interview techniques, data collection and analysis etc.

Banking Internship Programme

Introduction :-

The scheme of establishing a Career and Counseling Cell in colleges has been formulated to address the diverse socio-economic challenges and geographic backgrounds of the heterogeneous population of students coming to the Colleges vis-à-vis equity of access and placement opportunities through availability of appropriate institutional support information. Linguistic differences and cultural gaps among students also call for the setting up of placement cells.

Objective :-

Along with the academic and administrative processes in a college, Career and Counseling Cell has to be a dispensation of well-informed and interested teachers. It has to support the students in the development of soft skills and communication ability to challenge the rigors of competitive tests and on-job training in add-on or vocational courses. As a purveyor of healthy inter and intrapersonal relation it has to inculcate social values and ability to think independently for carrying out social responsibilities. There may be a team of teachers with different subjects and interests to create a homogeneous group to translate this vision and carry out its healthy functions as an institutional imperative.

The guidance and counseling cell in a college is a resource centre of information, guidance and counseling with free accessibility and internet based global connectivity and exchange of information on professional placements.

Function :-

- To gather information on job avenues and placements in different institutions and related to the courses that the college offers..
- To analyze information in the local, regional and national contexts to internships, explore its relevance and utility for the students on their internships, on job training and placement.
- To organize seminars and guidance workshops for informing students about their emerging professional trends and events, job profiles, leadership role, entrepreneurship, market needs and risks and implementation of national socio-economic policies and to impart training in soft skill

सर्वेक्षण प्रकल्प अहवाल-2022-2023

चिखली शहरातील व्यायामशाळांमधील (Gym) सदस्यांसाठी उपलब्ध सोयीसुविधांचे अध्ययन

प्रस्तावना-

शिक्षण प्रसारक मंडळ तात्यासाहेब महाजन कला व वाणिज्य महाविद्यालयाची स्थापना 20 जुन 1965 रोजी करण्यात आली. तेव्हापासुन आजतागायत हे महाविद्यालय कला व वाणिज्य शाखेत पदवी पर्यंतचे शिक्षण देत आहे. दरवर्षी महाविद्यालयाचे खेळाडु विविध आंतर महाविद्यालयीन तसेच आंतर विद्यापीठीय क्रिडा स्पर्धांमध्ये सहभागी होवुन आपल्या क्रीडा प्रकारात उपलब्धी मिळवित असतात. आतापर्यंत महाविद्यालयातील एकुण 62 विद्यार्थ्यांना विविध क्रीडा प्रकारात कलरकोट मिळाला आहे.

महाविद्यालयाद्वारा सुध्दा व्यायामशाळा(Gym) चालविण्यात येते. या व्यायामशाळेत महाविद्यालयाच्या विद्यार्थ्यांसोबतच गावातील लोक सुध्दा व्यायाम करायला येत असतात. या व्यायामशाळेची फी सुध्दा अत्यल्प आहे. व्यायामाचे शास्त्रशुध्द प्रशिक्षण महाविद्यालयाच्या व्यायामशाळेत देण्यात येते.

खेळाडु विद्यार्थ्यांच्या ज्ञानाच्या कक्षा रुंदाव्यात त्यांना अधिक उपक्रमशील बनवावे त्यांची जिज्ञासा जागृत व्हावी तसेच महाविद्यालयातील खेळाडु विद्यार्थ्यांना सर्वेक्षणाचे कार्य कसे केले जाते याची जाणीव व्हावी तसेच त्यांना काही प्रात्यक्षिक स्वरुपाचा अनुभव व्हावा हा मुख्य उद्देश आहे.

चिखली शहराची पार्श्वभूमी-

चिखली हे शहर तालुक्याचे ठिकाण आहे. चिखली हा भारताच्या महाराष्ट्र राज्यातील बुलडाणा जिल्ह्याचा एक तालुका आहे. चिखली तालुक्यातील हे चिखली नावाचे गाव जालना-खामगाव या महामार्गावर आहे.

बुलडाणा जिल्ह्यातील जास्त लोकवस्ती असेलेले शहर व सर्वात मोठ्या तालुक्याचे ठिकाण आहे. चिखली येथुन जिल्ह्याचे ठिकाण असलेले बुलडाणा केवळ 25 किलोमीटर अंतरावर आहे.

Best Practice II**1. Title of the Practice - “Environmental Awareness Drive”****2. Aims and Objectives-**

1. To create awareness among students about Environment.
2. To encourage students to participate in Environmental activities.
3. To form the strong bond with our surrounding.
4. To create awareness among the society about Environment.
5. To increase the participation of society in Environmental awareness.

3. The context-

Protecting the environment is the need of the time to prevent increasing pollution in urban and rural areas as well as to avoid damage to the area due to industrialization. Protecting the environment is not only the responsibility of the government, it is also the responsibility of the students, teachers and staff of the college. Also, in order to make this public awareness community-oriented, it is necessary to carry out creative activities with the citizens of the society to prevent future threats. In order to create awareness about the problem and conservation and create the ability to take environmental decisions, activities like creative tree planting, rallies and street plays have been implemented in the college as well as in the Adopted Village Division to prevent the society from tasting the toxic fruits of the polluted environment due to industrialization. Activities like tree plantation, awareness rally, tree distribution, tree binding, snake protection workshop, online environment workshop have been implemented in the college.

4. The practice-

During the last five years various environment friendly activities have been conducted by the various department of the college. By various means the departments inculcate the nature friendliness among the students.

Academic year- 2018-19**1. Environment Awareness Rally, (27, Sept.2018):**

Ours is a bio-diverse land where tremendous of species of animals and trees are found but like others we too are facing the challenges and downfall in environment sustainability. One of the modern monster which vigorously destroying our surrounding in front of us and if not restricted by various means possibly engulf the beautiful surrounding that we have today, viz. Plastic, reached everywhere and slowly but steadily capturing our surrounding. Therefore to cope with this challenge we initiated an environment friendly activity i.e. distribution of Old Sari Bags in the market with a view to aware the public not to use plastic bags instead bags made up of cloth. To inculcate the love and affection for nature is a prime objective.

2. Tree plantation Activities. (09/07/2018)

At adopted village Palas-khed, both departments collaboratively organised a tree plantation program and with the precious hands of Swami Harichaitanya Maharaj ,50 trees were planted.

Academic year- 2019-20**1. Tree plantation Activities-(July,01,2019)**

On July,01,2019 some trees were planted in college premise with precious hands of the secretary of the college,Shri.Premrajaji Bhala

2.Plastic Waste Management Seminar- (Dec.,01,2019)

On Dec.01, 2019 the NCC unit of the college organised a seminar on “Plastic Waste Management” in which Principal of the college Dr. Subhash Gawhane presided over the seminar then the function was chaired by Dr.Dilip Mahajan.In this seminar 30 students took participation and shared their views on waste management.

3.Study Tour, (10/03/2020,):

Not only this but various programs and activities have been organised like Study Tour- in which the study of environment is done, visit to bio-diverse places are given and students study that place minutely for their project purpose. Except the Corona -19 periods the study tour is organised every year.

Academic year- 2020-21**1. Online Workshop on Environment,(21st March 2021):**

During corona pandemic an online workshop was organised, in which the guest showed the garden made on the roof.

2. Tree Distribution, (20, Sept. 2021):

More than 150 trees were distributed to be planted among the college students. For planting at their respective places.

3. Dept.of NSS - tree plantation Activities

NSS unit of the college organised three different environment friendly programs as follows-

- a) Aug.15,2020 -50 trees were planted
- b) Sept.01,2020- 40 trees were planted in the Chikhli and Shelud area
- c) Sept.05,2020 -55 trees were planted in the adopted village Palaskhed.

Academic year- 2021-22**1.Tree Plantation and Distribution -**

On Aug.15, 2021 the trees of worth Rs.3000 was bought for the plantation purpose and in collaboration with Nature club 150 tree were distributed.

2.Tree Plantation-

This environment friendly activity was organised by the dept. of NCC. On July 26,2021,in which the Principal of the college ,Dr.Subhash Gawhane,all Teaching and non-teaching staff along with the students were present.05 trees were planted in college premise itself.

3. Plantation to create a garden and Environment oath,(15, Aug. 2021):

‘To make the campus more environment friendly the department took initiative to develop a small garden in college premise. On the occasion of Independence day the idea started taking the shape.

Academic year- 2022-23**1. Snakes and misconceptions workshop.(19,Oct.2022):**

The misconception about snakes is the prime culprit to imbalance the environment so, with the purpose to wipe out this misconception a workshop was organised, Mr.Dipak Suradkar, an environmentalist was invited.

2.Tree Distribution

On Oct.01,2022 NCC unit organised tree distribution program and distributed 40 trees among NCC cadets to be planted at their respective places. on this occasion Hon’ble Principal of the college, Prof.Dr. Subhash Gawhane and Prof.Dr. Prafulla Gawai appealed the students of NCC,Lt. Sharad Rave ,head NCC unit of the college organised this program.

5.Evidence of success :

The toxic effects of industrial causes helped to create an oxygen-rich environment by planting trees to some extent. The faculty, staff and students were able to create awareness about creating a green environment in the college premises. Planting at home has helped to protect the environment. Through environmental workshops, dialogues, lectures and public awareness rallies in the college premises, awareness about the environment could be created among the students and the participation of citizens was important while planting the trees in the village. The importance of tree plantation at the village level was able to create the concept of tree cultivation. Tree plantation has helped a lot in making the college campus pollution free. It is seen that ‘Vrikshavalli Amha Soyre’ has helped to put the concept into action.

6.Problems encountered and resources required-

During environmental awareness, the participation of the students was not as much as it should have been. It has also been informed that some students have not planted it, again through communication, awareness was created among the students about planting trees and they have planted those trees at their homes. It helped to reduce the environmental pollution which was very high. The problem is that the planted trees get burnt in the summer, but now they have to be protected by proper planting and the trees die due to lack of water. After planting trees in the village, the villager had not taken care of these trees in proper way.

7.Notes (optional) :

The effect of the activities which were carried out such as environmental awareness seminars, workshops and rallies was also seen in the college and adopted village. Prof. of our college, Dr. Vijay Wakode has planted two-way trees on Chikhli to Savana road and cultivated the trees while Prof. Dr. Prafulla Gavai has tried to cultivate the environment by planting 300 plants in the bins in the terrace garden at Amravati. On the occasion of the birthday of the faculty and staff, the activity of 'Gift of trees and bins' is implemented in the college, while the concept of 'Vrikshvalli Amha Soyre' is implemented like Rakshabandhan. By creating awareness about tree plantation among the students through Nature Club, Ku.Shital Wagh and Ambadas Wagh have created a nursery at their home in Masrul, through this trees are also distributed. Along with tree conservation, Jusapi campaign was implemented in the college to avoid the use of plastic.

State Level e-Survey of English Language

We, the faculty, department of English, do conduct some co-curricular activities for the students of English language and literature, every year. In the academic year 2021-22, we decided to conduct a state level e-survey of English language to test the understanding of undergraduate students. Our hypothesis behind this activity was that the fear of English language among the students in present scenario is lessened. Before conducting this activity we had the idea of common burden of English and mathematics among the Maharashtrian students. And one of the basic reasons of dropout was this burden. So, we wished to check the effect of making English as a compulsory language from the first standard.

Previously, when English was taught from the fifth standard, this pressure was commonly carried by the students. But our survey has proved that present situation is slight better than previous one. Hence, we prepared a set of 20 questions 2 marks each with multiple options to check the reality. We are happy to register good response from the various universities of Maharashtra. Five universities including 1) Savitribai Fule University, Pune, 2) Mumbai University, Mumbai, 3) Nashik University, Nashik 4) Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon 5) Sant Gadge Baba Amravati University, Amravati were participated in the survey.

288 students responded from various colleges of these universities. When we analysed the score of male- female categorically, we found that :

- 1) 15 students out of 288 scored out of marks. They scored 40/40. Among them 7 boys and 8 girls scored out of marks.
- 2) Score between 30 to 40...88 students. Among which 45 boys and 43 girls.
- 3) Score between 20 to 30 ...76 Student. Among which 29 boys and 47 girls.
- 4) Score between 10 to 20...109. Among which 68 boys and 41 girls.
- 5) Score below 10...00.

It's a matter of joy that no candidate scored below 10.

***Finding :** The change we see clear before and after doing English language compulsory from the first standard. Before this pattern, maximum students happened to be failed and more than 20 percent students below 10 marks. But here we see 15 students scored out of and no student is below 10.
